VERBAL DESCRIPTION:

Yellow, mold-made big frog with a large, triangular nose sporting a huge nose plug. The plug extends from the right nostril but does not pierce the septum or the left nostril. There is a slit eye with raised, puffy margins, and a rectangular mouth with puffy lips and a "T" tooth. There is one tooth to each side of the two central incisors. No frog core, cladding, lining, slip or paint. Wait, the nose plug only completely pierces the nose - there is a scar on the exterior of the left nostril.
